EMAIL jasonpaxtoncooper@gmail.com

Hello! I'm a designer and developer looking for my next passion project. Do you have a web application that you need to constantly enhance with new features for your customers? Or maybe you have a vision where you're still working out the details? I can help in either case.

Please reach out to me and I'm happy to share my thoughts and experience, and listen to yours.

Laravel PHP framework

GitHub CI/CD
Cursor IDE with AI
Adobe Creative Suite

EXPERIENCE

[View full work history on LinkedIn](#)

Senior UI Designer / Developer, Peerless Network

Sep 2018 - Apr 2025 · 6 yrs 8 mos

I led the design and development of the Peerless Portal, a customer-facing order automation platform. I started with a blank canvas and had the platform deployed in production with customers in 3 months.

Marketing Automation & Technology Manager, PGI

Jan 2016 - Sep 2018 · 2 yrs 9 mos

I managed PGI's marketing automation platforms and content management systems. I also extended PGI's marketing technology capabilities through heavy JavaScript and PHP development, and leveraging APIs.
